It was an excellent course

Trainer is excellent, very knowledgeable - paramedics

Tutor is fantastic - very interesting course

The best PFA course I have done. Stressed all the changes

Tutor was fantastic

Very good course - informative

Jill is lovely, easy going, lots of fun and makes it fun

The course was delivered well.

Interactive and practical course was great to embed made it clear to ask if not understood.

Lots of experience/demos and questions were encouraged

Knew what to expect at the start of the course, links provided

Very interactive course and met the needs of all

Regarding COVID

We managed all the COVID really well and kept social distance very well

Safety measures for COVID-19 were taken very well

Everybody had masks and was 2 meters apart

Individual Annies were very good along with own clip board which was good

Very ventilated room

Felt very COVID safe

COVID restrictions worked well. Enjoyed the virtual part of the session along with the practical part

Well informed of what was needed

COVID restrictions were managed really well. The first session over Zoom was different

but was a good idea to reduce contact. The second session was completed in a way that

ensured a safe level of distance. Masks were advised in the information sent out prior to

the course - thank you Jill!

Social distance was kept. The guide did say only time we will have contact is the

recovery position but contact was more. I'm kind of glad it was more contact because it

was needed to learn certain stuff. I just think the guide should not say only contact is

recovery position.

The course was well delivered and interesting. It worked well the first week, everyone

interacted and I had no problems with it being virtual

COVID friendly training - felt safe - masks/distance maintained where possible

Would Recommend

Hand gel at each station, not everyone had brought one which is down to the individual
