Comments or Feedback Received

Really pleased we went for a bespoke training rather than just sending people on a random course. I was incredibly impressed with the breadth of knowledge of the trainer and was delighted by how positive it was for our organisation and also the feedback of my colleagues

I will be back in touch as soon as we have any further training needs

Thank you Jill for a very useful intro to this topic. I thought you made it very fit for purpose. It was a lot to fit into the two hours, but I thought you did very well given the shortage of time.

We requested a bespoke training as a young charity on safeguarding and Jill really came through. She was approachable, knowledgeable and happy to answer any questions and talk us through more complex points
