Informative
Great thanks - group discussion was good
Too short
Interesting, interactive and informative
Very helpful with useful scenarios
Extremely interesting and useful
Really interesting discussions in the groups
Very useful thanks
Good to have case studies as examples
I have been to the previous version and now this version. I really enjoyed this version. The short timed groups were good with good examples. Interesting things brought up and overall very quick and enjoyable.
It felt quite rushed. The combination of teaching and group discussions was good but there was not enough time to really digest it all. Another 15 minutes to cover the same content would have made it more impactful.
I found last night's masterclass about "vulnerability" interesting and useful. The format was varied and unpressured - if that is a word! Thank you

ADDITIONAL SESSION FEEDBACK OR IDEAS FOR FUTURE SESSIONS?

More of the same
Thank you
Liked the group size. Not too big.
Short length of just over an hour was good
Thank you
Nothing at present thanks
I really like the set up of this session
